## Education

### **M.A. ANTHROPOLOGY | IN PROGRESS | UNIVERSITY OF IDAHO**

Major: Anthropology

Emphasis on Archaeology

Thesis Subject: Nauvoo, Samuel H. Smith Site History, Archaeology and Foodways

### **B.A. ANTHROPOLOGY | MAY 2018 | UNIVERSITY OF IDAHO**

Major: Anthropology

Minor: German

## Skills & Abilities

### **CATALOGING AND DIGITIZING**

I developed several digitizing projects involving library collections for the past four years. These projects included transcribing, scanning, cataloging metadata, and web output. I digitized multiple kinds of documents such as market ledgers, Sanborn maps, photographs, and manuscripts.

### **LEADERSHIP**

As a graduate student, I served in a leadership capacity by mentoring and teaching undergraduate researchers lab methods and techniques. I supervised their work for two years and allowed them to conduct their own research and analysis to result in their own projects and conclusions based on the data collected.

### **COMMUNICATION**

My projects and programs led me to present my research at several academic conferences. I presented posters at three conferences and have presented papers at another three conferences. These conferences include the Northwest Anthropological Conference (NWAC), Idaho Archaeology Society (IAS), and Society for Historical Archaeology (SHA).

### **TECHNOLOGY**

Between various projects and jobs, I have acquired skills in different computer programs and systems for the purpose of archiving and digital archiving. These programs and systems include Omeka, the Adobe suite, Visual Studio Code, GitHub, HTML, CSS, and Bootstrap.

## Experience

### **GRADUATE DIGITAL COLLECTIONS WORKER | UNIVERSITY OF IDAHO | SEP. 2019 – JUNE 2020**

Assist in creating the CollectionBuilder tool for archives and libraries and create digital collections

### **SPECIAL COLLECTIONS AND ARCHIVES ASSISTANT | UNIVERSITY OF IDAHO | FEB. 2017 – AUG. 2019**

Created a digital exhibit using archival material and research; digitized Idaho Sanborn Map collection
