Skills & Abilities

RESEARCH

- I have been a part of several research projects, including doing site history and background history. These projects include the Moscow Hotel in Moscow, Idaho, mining camps in Boise, Idaho, the Mansion House and the Samuel Smith archaeology site in Nauvoo, Illinois.

WRITING

- Concerning the projects mentioned before, I have written several reports and site histories as well as data interpretation from the historical documents as well as the archaeological artifact data. The biggest, recent project was for the Samuel Smith site that I am currently writing as part of my M.A. thesis.

COMMUNICATION

- The projects mentioned have led me to present my research at several academic conferences. I have presented posters at three conferences and have presented papers at another three conferences. These conferences include the Northwest Anthropological Conference (NWAC), Idaho Archaeology Society (IAS), and Society for Historical Archaeology (SHA).

TECHNOLOGY

- Between various projects and jobs, I have acquired skills in different computer programs and systems for the purpose of archiving and digital archiving. These programs and systems include Omeka, the Adobe suite, Visual Studio Code, GitHub, HTML, CSS, and Bootstrap.

Experience

GRADUATE DIGITAL COLLECTIONS WORKER | UNIVERSITY OF IDAHO | SEP. 2019 - PRESENT

- Assist in creating the CollectionBuilder tool for archives and libraries and create digital collections

SPECIAL COLLECTIONS AND ARCHIVES ASSISTANT | UNIVERSITY OF IDAHO | FEB. 2017 – AUG. 2019

- Created a digital exhibit using archival material and research; digitized Idaho Sanborn Map collection
